PREAMBLE

Ago Vires is regionally based and operated, offering services to regional Queensland, South Australia and Northern Territory where services (such as ours) are rarely available.

Ago Vires prides itself as an Energy Construction Specialist who's core values align with our customers, our workforce and our stakeholders; of whom, we share a synergy and appreciate working with.

VISION STATEMENT

Our vision is to become the Energy Construction company of choice; who specialise in construction projects and high risk work in remote regions across Australia, with a reputation for Quality, Safety and Environmental Management.

OUR CORE VALUES

The name '**Ago Vires**' is derived from the Latin language and commonly means; *power, strength, dignity and respect.*

These are the core values our company hold dear to our customers, our employees, our contractors and each stakeholder.

CORE BUSINESS

Ago Vires (AV) specialises in providing remote area construction of Oil, Gas and Energy utility equipment and the maintenance for the upkeep of that equipment on a 'turn key' basis.

Our target markets are remotely positioned oil and gas energy producers and other businesses that suite our operations.

MULTI-DISCIPLINED CONTRACTOR

Ago Vires is an experienced construction contractor that specialises in **Mechanical, Electrical, Civil & Instrumentation** for:

- ✓ Construction of Oil & Gas lease pad facilities
- ✓ Oil & Gas production facilities
- ✓ Green field capex project construction
- ✓ Brown field, in service, plant and process equipment upgrades
- ✓ Shut-down 'end to end' works for small scale shutdowns (<\$4m)
- ✓ In service rectifications of process and control equipment

TECHNICAL SERVICE OFFERING

- Mechanical piping installations, valve installations and hydro-testing of pipework
- Call-out service (mechanical, welding, electrical and plumbing)
- Electrical and instrumentation installations, specialising in maintenance in remote locations and hazardous areas
- Specialist welding capabilities for pressure piping, pipelines, structural and inspections
- Civil works for site establishment, access ways, lease pad clearing, hard stand and laydown areas
- Operators and maintainers for Oil facilities
- Pipeline installations for gas, oil, water, waste water and slurry lines (<10km in length)
- Crane and haulage of equipment to site and positioning on site
- QBCC Licence for Plumbing, Drainage, Gasfitting, Concreting & Carpentry
- Type 'B' gas installations and certification
- Refrigeration/Air conditioners
- Registered BOC Gases Distribution Agent

OUR PEOPLE

Our people are the backbone of our company. Our core company values are well cultured in our daily activities and the workforce are led by experienced Oil & Gas professionals.

The dynamic industry experience held within our workforce is the linchpin to our company achieving our customer's business objectives.

It is the continual improvement culture within the Ago Vires workforce that has made the company an Energy Construction Specialist.

Our people are experienced Oil, Gas and Energy professionals who have 'hands on' knowledge and experience with remote area construction projects.

Our teams hold most importantly; Quality, Health & Safety and Environment along with our own business core values which together ensures our customers are looked after.

OUR PEOPLE
ARE THE
BACKBONE
OF OUR
COMPANY

OPERATIONS

Ago Vires uses an Integrated Management System (IMS) to control Quality, Safety, Environmental, Human Resources and Operations through all phases of Project Development.

PROJECT DIVERSIFICATION

Our construction personnel have the skills to support customers through all phases of project construction, including:

Feasibility
